

TurningPoint Student Clicker Guide

Note: Some TurningPoint XR clickers are white and orange and others are blue and gray. Color does not affect function.

TurningPoint Student Device Registration

To register a TurningPoint clicker device in an eLearning course, follow the steps below.

1. Open the eLearning course and click on the TurningPoint Clicker Registration icon.
2. Locate the **Device ID** on the back side of your clicker. This number appears below the barcode on the clicker.
3. Enter the **Device ID** in the **Response Device ID** field and **Confirm Response Device ID** field in your eLearning course. **Note that all 0's in the Device ID are zeros and all 1's are number ones.**

Response Device ID:

Confirm Response Device ID:

4. Click the **Submit** button.

Student Instructions for Changing TurninPoint Clicker Channels

1. Press the **Menu** button on the clicker to turn it on.
2. At the "Leave Presentation Mode?" prompt, press the **Yes** button.
3. Press the **Yes/Down** arrow key to select *Change Channel* and press the **Enter** key located above and to the left of the **1/A** key.
4. When the *Current Channel – New Channel #?* Screen appears, press the desired channel on the keypad.
5. Press the **Enter** key located above and to the left of the **1/A** key.
6. When the clicker has successfully located the receiver it will display, "Channel Changed. Receiver Found". The clicker is now ready to communicate with the classroom receiver.
